

Accessibath

10% OFF
Your bathroom
renovation

According to an AARP survey, 90% of American seniors want to age in place. It's no wonder considering the average cost of assisted living over 5 years is \$300,000. The financial savings of living at home isn't the only perk, aging in place also helps maintain independence, is often a safer and healthier environment and preserves familiar settings and routines.

BEFORE

AFTER

- A typical Accessibath job consists of removing a standard bathtub and replacing it with an accessible curb-less or low threshold shower, complete with grab bars, a hand-held shower fixture and a bench seat.
- Accessibath can also replace your standard toilet with a chair height toilet and associated grab bars installed on the adjacent walls.
- Accessibath can complete the whole bathroom renovation including flooring, countertop, and walls receiving new finish treatments and ADA type plumbing fixtures installed in the vanity cabinet.
